Skills

FRONTEND
React • Javascript • Typescript • Next • HTML • CSS • Sass • JQuery

LIBRARIES
Redux • React-Redux • Redux-toolkit • RTK Query • Redux-Thunk • React-router-dom • Axios • Formik • Yup • React query • React-Stripe-js • React-PDF • React-Helmet • Material UI • Bootstrap

MOBILE DEVELOPMENT
React Native • React Navigation • React Native Paper • Android Studio • pagination • Async storage • PDF download • Push Notifications • Google Firebase • Expo • Publishing

BACKEND/DATABASE
NodeJs • ExpressJs • MongoDB • Mongoose • Restful APIs

AWS
EC2 • RDS • EFS • Amplify • IAM

MISCELLANEOUS
Problem solving • Data structure • Algorithms • Nx workspace • Speed Optimization • Responsive designs • Figma • Git • Jira • Agile Methodologies • Adobe Photoshop • SEO • Wordpress • Technical writting • MS Office

Education

DATTA MEGHE COLLEGE OF ENGINEERING
University of Mumbai
Bachelor of Computer Engineering
📅 Nov 2020   📍 Airoli, Navi Mumbai
- percentage- 65.64%
- CGPA- 7.01cgpa

K.M AGARWAL COLLEGE OF SCIENCE
12TH
📅 June 2016   📍 Kalyan, Thane
- percentage- 65%

C.R.M HIGH SCHOOL, KALYAN
10TH
📅 may 2014   📍 Kalyan, Thane
- Percentage- 84.60%

MyProjects — ATHARVA'S E-COMMERCE WEBSITE (ProjectLink) (GitHubLink)
📅 Nov 2022 – Feb 2023   📍 Pune, MH

- On the front-end, I used React to create a **dynamic user interface** that displays product details, allows users to **search and filter products, and provides a smooth checkout process**. I also implemented features like **user authentication and authorization**, so that users can create accounts, sign in, and access their order history.I integrated Redux for state management, and utilized Axios for API requests.
- On the back-end, I used **Node.js** and **Express.js** to create a **RESTful API** that connects to a **MongoDB database**. This API handles user authentication and authorization, as well as managing product and order data. I also integrated **Stripe for payment processing**, ensuring that transactions are secure and seamless for users.
- Deployed the website on **Amazon Web Services (AWS) EC2 instance** and utilized Git for version control.

Experience

FRONTEND DEVELOPER
Polyglots Software LLP
📅 Mar 2022 – Present   📍 Pune, MH

- As a frontend React and React Native developer, I have proficiency in developing **high-quality, responsive, and user-friendly web and mobile applications** that provide seamless user experience across multiple devices and platforms.
- **Increased app performance by optimizing code and improving data fetching techniques**, resulting in a faster and more seamless user experience.
- **Improved user engagement and retention by implementing personalized user interfaces and features** based on user behavior and preferences.

My expertise includes:
- Building **interactive** and **dynamic user interfaces** using React and React Native
- Developing **modular**, **reusable**, and **scalable** code
- Integrating **third-party libraries** and **APIs** to enhance functionality
- Implementing **user authentication** and **authorization** features
- Optimizing **performance** for better user experience
- Writing clean, well-documented, and maintainable code. Collaborating with cross-functional teams to deliver projects on time and within budget
- I have a strong understanding of HTML, CSS, and JavaScript, and I keep up-to-date with the latest trends and best practices in frontend development. Additionally, I have experience with version control tools like Git and GitHub, and I am comfortable working in agile development environments.

Overall, my skills and experience as a frontend React and React Native developer make me a valuable asset to any team looking to build innovative and engaging web and mobile applications.

Certifications
• Udemy **React** • Udemy **GraphQL** • HackerRank **Problem solving** • Certified F&O Trader (Year 2021)
